Mission Statement

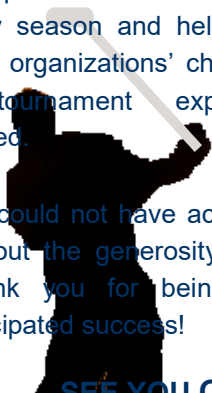

Due to great success of last years tournament the Frazer Family Charitable Foundation and Kiwanis Club of Southington have again elected to partner this year,

Southington Kiwanis and the Frazer Family Charitable Foundation are 501(c)(3) non-profit trusts and both organizations share many of the same charitable philosophies. Both have provided financial assistance to help pay for catastrophic and uninsured medical bills, prescriptions etc. for those without the means and sponsored drug and alcohol resistance programs for teenagers.

Southington Kiwanis has awarded college scholarships to high school students who demonstrated academic merit and financial need and provided food for those trying to make ends meet.

Joining forces again will continue to maximize our personnel resources during this already busy season and help us to meet or exceed both organizations' charitable goals, enhancing the tournament experience for everyone involved.

We could not have achieved these good works without the generosity of others such as you. Thank you for being part of this year's anticipated success!
